

Home Repossession

Home Repossession Possibly the worst debt problem we can face is the fear of losing our home. The advice here is, see us earlier rather than later. We may be able to prevent a repossession if we approach the Creditor in time. If for any reason repossession is inevitable, then we may be able to negotiate a postponement and advise on alternative options. In certain limited circumstances Legal Help is available to appear in Court in Possession Proceedings. Please ask.
